(18-06-2012, 13:45)ELEKTROAUTO_Eraldi Written by: Hello. Can anyone help me with Vivid WorkshopData ATI 11.2? I have it, but it's too slow. I am using Windows 8.1 x64 Hey! I don't think there is any solution in this forum. This is due to the fact that all programs and drivers (except free ones) must be installed on the computer in order to be able to access them. Try to check if there are any updates for ATI 11.2 on the website: <https://support.microsoft.com/en-gb/kb/972085> Regarding your question, you must be using the ATI software.
