A shadowy threat has gathered his forces and evaded the authorities to enact a diabolical plan for the world. It's up to you to stop the alien invasion and become the ultimate weapon. Redesigned, expanded, and polished from its original game and build, Platinum Kill combines retro appeal with modern game-play, making it a game for all ages. PLATINUM KILL V1.7 IS HERE! Fixes: This is a newly re-coded version that has more map features in order to make the levels more interesting. Players can no longer deviate from the path toward the end of the level. This is now an optional gameplay mechanic. We also added in a variety of traps to enhance gameplay and added new weapons, enemies, bonus items, new bio weapons, and more! New Features: Each level has been redesigned with new objectives and a story line, allowing players to choose their own pace of completion. You can now deviate from the path to the end of the level. Bonuses are now collected with an extra item. New weapons are added for you to choose from. Enemies are added for you to choose from. How do you play? Using only the mouse to move, collect and fire all of the items you find. Arrows and circle keys will be used to pick up items and navigate the level. You can quickly switch weapons by pressing the space bar. Randomly generated maps: For each level, the map will have the same map layout on each of the play throughs. Random number generation will be used in order to keep levels unique and different each time you play. Version 1.7: Overall: Added More Weapons: Added More Enemies: Added More Bonuses: Added A Story: Added A Map: Updated the Appearance: New Weapons: Vortex Gun - The Vortex Gun has a control voltage range of 1 to 5, and can be aimed and shot in any direction. Varying shades of red are produced at the target point. High voltage causes massive damage to the enemy. Barrage Gun - The barrage gun is similar to the Lazer gun but instead of an energy field, the damage field is a circle. Be careful to stop firing all together to avoid damage. Blossom Gun - When the bloom is destroyed, the bloom

Tequila Sunrise Lite is a match 3 game by Wibeke Software and Inc. The Ultimate Guide to Playing Tequila Sunrise The game focuses on the classic "match three" genre, but the new and improved gameplay lends itself to a completely new experience. Easy to learn The game is simple to learn. Not many options, just a few. The game is not difficult, but it is

challenging to master. Good for people who don't like to think about the controls. The controls are very simple. Only one button on each side. In other words, it's not a complex game, but a complex challenge. Not very high scoring, it's fun to get the highest score possible. Tequila Sunrise gets its name from the action movie "Crimson Tide" starring Tom Hank. The movie was about a group of marines who participate in a torpedo exercise in the northern part of Mexico. During the exercise, a couple of air force fighter jets conduct an airstrike on a naval fleet. The fighter jets decide to escort the USS Alabama to shelter in the Mexican town of Nuevo Laredo. When the rest of the US Navy arrives in the port, they find the ships already there, except for the USS Alabama. A submarine was on the way to pick up the rest of the US sailors and now the submarine is missing and it'

In the next video I will show you some of the features and also play the game to teach you how to play properly. *GREETINGS, YOU'RE VISITING THE MISSION OF CHRISTIANITY, PROTECT THE CHURCH OF THE HOLY SPIRIT, AND PREACH THE GOSPEL* Let's check the features now! Features: - Tutorials - Quest System - World Map - Enemy - Architecture, Weapons - Bounty System - Battle System Let's try the Tutorials! First of all we have two tutorial levels. In the first level we'll see how to use the names. You can type the name of the character you want to show. After typing the name we'll have these options: Run, Guard, and Show Hand Order. The next level is Control. With Control we can activate or deactivate buttons. The next screen shows UART, SCAN and HEX. You can use UART to keep a connection to the game. If you want to learn more about UART, please read this tutorial: UART. SCAN is a way to control the screen as you are playing the game. This tutorial explains it all. HEX is another way to control the screen. Next we will see how to use the maps. When we are about to play the game we can see the main map. Like in the tutorial or control maps, you can see the name of the game, and then these options. We can play the game and we can also save and load. Also we have the ghost list which shows the enemies and their information. In this case we have 11
