Reviews These are trusted  
reviews from guests who have  
actually stayed here. We hope  
you find them helpful. Note: we  
only give a property a rating once  
it has received a minimum of 3  
reviews. Page:1/1 Sort By:

Traveler Type: Age: “ I stayed at a  
hotel in the nearby village, the  
hotel which I went to is far more  
fabulous and luxurious than the  
hotel I stayed in. It is super fancy,  
it's like a golf resort not a hotel.

---

The staff was super nice, the whole is very pretty. " Traveler Type: Age: " In general, the nice and friendly staff. Overall, was just a great stay at the hotel. " Traveler Type: Age: " This hotel is an excellent hotel in this area. It is comfortable and the staff is very helpful. You can travel to many great outdoor activities only 10 minutes from this hotel. " Traveler Type: Age: " The staff were very friendly, staff we particularly enjoyed the spa facilities. " Traveler Type: Age: " This was a great stay, staff were pleasant, room was spacious, breakfast was tasty. " Body surface areas determined by planimetry: an alternative to the standard method. Body surface areas (BSA) of adults can be calculated from a small number of measurements of basal area of the rib cage (ABC) and thorax (TB). The tracheal area is given by  $AB/TB$ . The BSA is given by  $TB \times 0.007 \times 0.024$ . The

---

tracheal area can be calculated from the measurements of the smaller airways, and this has been recommended as an alternative to ABC, although the rib cage serves to obstruct the lung collapse and
