Field of the Invention The present invention relates to automobile steering wheel covers. 2. Description of the Prior Art The steering wheel of an automobile is covered by a steering wheel cover made of an elastic material such as rubber. The steering wheel cover protects the automobile's steering wheel from being damaged and damaged the hands of an operator due to the steering wheel of the automobile. The steering wheel cover must be capable of being easily installed and removed from the steering wheel. Also, the steering wheel cover must have a uniform appearance. The steering wheel cover of the prior art has a top surface which is configured and contoured to receive imprinted instructions associated with the functioning of various automobile features. The imprinted instructions apply to both the right and left hand steering wheels and the instruction imprinted on one side of the steering wheel cover is reversed on the opposite side of the steering wheel cover. In addition, the steering wheel cover of the prior art has an apertured base pad which is smaller in width and height than the width and height of the steering wheel. The base pad provides a strong adhesive support for the steering wheel cover. There is a need to improve on the styling of prior art automobile steering wheel covers. There is also a need to improve on the manufacture of automobile steering wheel covers.Q: Tirar ou colocar um efeito na imagem quando o usuário passa o mouse a sua imagem Eu gostaria de poder tirar ou colocar um efeito na imagem quando o usuário passa o mouse sobre ela, a imagem não ficar em branco e ao
